

SAFETY ROAD BARRIERS

Ozplast Vertical Water Tank are manufactured locally in the UAE and made from high quality UV stabilized PE material ensuring strength and services life. The Tank is available in three four and five layer types and can be manufactured in a variety of colors to suit your specific requirement.

Specification OZ-RB-2200

Length	: 2160mm
Height	: 800mm
Bottom Width	: 500mm
Top Width	: 175mm
Thickness	: 6mm

General Features

- »» Lightweight, easy to transport.
- »» Maintenance free.
- »» High visibility colors,
- »» Variable Weight
- »» Sport Events
- »» Demarcation
- »» Construction / Building Sites
- »» Pedestrian Control

WATER TANKS

Ozplast Vertical Water Tank are manufactured locally in the UAE and made from high quality UV stabilized PE material ensuring strength and services life. The Tank is available in three four and five layer types and can be manufactured in a variety of colors to suit your specific requirement.

Specification OZ-VT 1000

Capacity	: 1000 US Gallons (3785.41ltrs)
Diameter	: 1665 mm
Height	: 2090mm
Manhole Size	: 510mm
Thickness	: 8mm

Specification OZ-VT 500

Capacity	: 500 US gallons (1892.71 ltrs)
Diameter	: 1580mm
Height	: 1360mm
Manhole Size	: 370MM
Thickness	: 6mm

General Features

- »» Leak Proof
- »» UV Stabilized
- »» Rust Proof
- »» Strong and stress Resistant
- »» Rotation Moulded.

Typical Layout

Each floor will require 1 hopper, 1 pair of brackets and 3 Chutes (dependent on final floor height required). This will result in a total maximum working length of $1050+1070+1070+1070 = 4260\text{mm}$.

The final heights can be amended simply by adjusting the chain and hooks supplied with the components and increasing or decreasing the overlap of the chutes.

The mounting frames can be supplied either galvanized or primer coated and include M10 anchor bolts for mounting to the concrete slab.

PE UTILITY MARKER POSTS

Ozplast PE Utility Marker Posts are manufactured from high quality PE materials locally in the UAE. They are utilized for clearly identifying and highlighting locations of underground utilities such as Fiber optics cables, natural gas pipelines, water pipelines, electric cables, sewage lines, fire hydrant lines. Ozplast markers are light weight, customizable and easy to install making them the perfect choice for your project.
